PPG Canada Inc. and Mitchell International Inc. Announce a New Partnership

MISSISSAUGA, Ontario, Mar. 31, 2008 – PPG Canada Inc. and Mitchell International Inc. are pleased to announce their new preferred vendor partnership. The partnership gives the PPG *CertifiedFirst* network of collision repair centres access to the line of Mitchell management systems.

“PPG is pleased to be able to offer *CertifiedFirst* Members a great choice in management systems,” says Jeffery Murphy, Marketing Programs Manager. “Mitchell’s ABS and ABSe Collision Shop Management Software provides profit enhancing functions that can turn any shop into a more productive enterprise, something that the *CertifiedFirst* collision repair centres are looking to do.”

Mitchell offers technologies to give repairers powerful tools that add efficiency to business operations and connection to leading business partners. “It’s a great system and the support that Mitchell provides in terms of over the phone technical help and the Sales Rep are second to none,” says Tom Bissonnette, owner of Parr Autobody, Saskatoon, Saskatchewan. Collision repair centres of any size can manage their business for growth using the ABS Body Shop Management System to automate or streamline business functions, thereby helping collision repair centres become more efficient and profitable. It is the only bilingual system on the market today.

The preferred vendor partnership will be in effect from March 14, 2008 until further notice.

About PPG

Pittsburgh-based PPG is a global supplier of paints, coatings, chemicals, optical products, specialty materials, glass and fiber glass. The company has more than 150 manufacturing facilities and equity affiliates and operates in more than 60 countries. PPG’s sales in 2007 were \$11.2 billion. SigmaKalon, a worldwide coatings producer based in Uithoorn, Netherlands, that PPG acquired Jan. 2, 2008, had 2007 sales of \$2.9 billion. PPG shares are traded on the New York Stock Exchange (symbol: PPG). For more information, visit www.ppg.com
